

IS LIVING'S VISION

Our Mission Statement

To create equal opportunities for seniors and people with disabilities to live and work in a way which maximizes *Autonomy.*

Integrated Supports for Living, Inc. is the result of two merged community providers, which were originally founded in the early 1970's, Spruce Villa, Inc. and Oregon Housing and Associated Services, Inc.

We are not-for-profit organization dedicated to providing the highest quality, person-centered services for seniors and people with disabilities.

 - Shopping
 - Gardening
 - Accessing public transportation
 - Using the telephone
 - Managing Medications
 - Work/Volunteer Exploration
- Bus Training
- Leisure exploration
- Support Groups

ACQUIRED BRAIN INJURY

THERAPEUTIC ENVIRONMENT

COST OF SERVICE:

Funding may be provided through Medicaid, Workers Compensation, and Private Pay. Contact us with any questions about funding services.

Cognitively accessible house with private bedrooms.

Quiet sensory room and a separate living room that allows individuals to relax.

LENGTH OF STAY:

The focus of this program is on transitioning individuals with an acquired brain injury into the least restrictive environments possible as a result of this program. The length of stay will depend on the needs of each individual. The focus is on having individuals work on their personal goals, and as they meet them, transition into more independent living.

Being a part of support groups with other survivors is an important part of this program.

Learning public transportation and being more integrated in the community.

THERAPEUTIC ENVIRONMENT:

Glynbrook can accommodate as many as four residents. Each individual has their own bedroom, which is fully furnished. The program provides 24 hour staff support and the environment includes an accessible kitchen, quiet room, living room, game room, outdoor BBQ and garden. It is fully cognitively accessible and located in a quiet neighborhood near public transportation.

Individuals are encouraged to engage and participate in all daily living tasks.

Participate in recreational activities both at home and in the community.
