

Frequently Asked Questions:

COST OF SERVICE:

Funding may be provided through Medicaid, Workers Compensation, and Private Pay. Contact us with any questions about funding services.

PROGRAM ELIGIBILITY:

- Diagnosis of an acquired brain injury.
- Be medically stable.
- Have no current substance abuse issues (a prior history of chemical dependency will require education and support program to address this issue).
- Benefit from a structured environment (to maximize your independence and work towards a specific discharge plan).
- No criminal history.
- Ability to ambulate with minimal assistance from staff either with a wheelchair or assistive device. Residents may need more assistance with higher level tasks including climbing stairs or walking on uneven surfaces.
- An ability to communicate needs, even if mild deficits in the use of language interfere with functional communication, but not majority of the time.

LENGTH OF STAY:

The focus of this program is on transitioning individuals with an acquired brain injury into the least restrictive environment. The length of stay will depend on the needs of each individual. The focus is having individuals work on their personal goals, and as they meet them, transition into more independent living.

THERAPEUTIC ENVIRONMENT:

Glynbrook can accommodate as many as four residents. Individuals have their own bedroom, which is fully furnished. The program provides 24-hour staff support and includes an accessible kitchen, quiet room, living room, and outdoor garden. It is fully cognitively accessible and located in a quiet neighborhood near public transportation.

WHAT DO I NEED TO BRING TO THE HOUSE?

The house will be fully furnished, but residents are encouraged to bring any personal items that will make them feel more comfortable. The rooms will include a twin-size bed, linens, closet, and a dresser.

ARE THERE OPPORTUNITIES TO GO INTO THE COMMUNITY?

Yes, being in the community is an important part of the program. Individuals engage in bus training and learn how to access public transportation. A bus stop is less than half a mile from the house. It is encouraged that individuals will be involved in activities in the community several days a week such as grocery shopping, going to the movie theater, visiting a coffee shop, attending a brain injury support group, or a leisure exploration activity.
